Junior Software Developer with over a year of experience in frontend development and UI/UX design. Adept at crafting responsive, user-centric web applications using HTML, CSS, JavaScript, and React.js. Passionate about clean code and intuitive design, with a strong ability to collaborate with cross-functional teams to bring innovative ideas to life.

Work Experience

Junior Software Developer (Frontend)

August 2023 – Present - MannIT

1. I have developed and maintained responsive, user-friendly web interfaces using React.js, HTML, CSS, and JavaScript, achieving 98/100 in Performance, 91/100 in Accessibility, 100/100 in Best Practices, and 90/100 in SEO.
2. Worked on features for projects like **Alumni Registration, Admin Panel, and Mock Test Applications.**
3. Ensured mobile responsiveness for key components ,optimizing the user experience across various devices.
4. Actively participated in team meetings, discussions with UI/UX designers.
5. Translated high-fidelity UI/UX designs into performant, accessible components, achieving 95+ Lighthouse performance scores across all pages.
6. Collaborating with designers and backend developers to integrate APIs and ensure a seamless user experience

Projects

➤ Alumni Registration System

Tech Stack: HTML, CSS

- 1 . Designed and developed the frontend for a web-based alumni registration platform.
- 2 . Collaborated with team members to ensure smooth user flow and form validation.
- 3 . Improved user experience by creating a clean layout and intuitive form navigation.

➤ Admin Panel

Tech Stack: HTML, CSS

- 1 . Built a modular admin interface to manage users, content, and settings.
- 2 . Designed UI components for adding, updating, and deleting records dynamically.
- 3 . Contributed to layout optimization and improving consistency across pages.

➤ **NEET & JEE Mock Test Web App**

Tech Stack: React.js

- 1 . Developed an interactive testing interface for students with real-time results.
- 2 . Enhanced user experience by optimizing layout, responsiveness, and navigation.

Internship

Python Development Intern

January 2022 – April 2022

Shiash Info Solutions Pvt. Ltd. – Chennai, India

Education

Bachelor of Science (B.Sc) in Computer Science

April 2019 – August 2022
